**Savik Ramkay**  
Professor  
Seneca College  
1750 Finch st. W  
Toronto, M2J2X5

Dear Mr. Ramkay,

Please accept this letter and curriculum vitae in your search for a part time lecturer at Seneca College. I was made aware of this position through a mutual friend of Ali Mousavidehshikh's. Currently I'm finishing up my Ph.D in physics at McMaster University, with an expected defense date of August 20.

I'm an ideal candidate for a lecture position in a STEM subject course. I have 7 years of teaching assistant experience along with some experience lecturing at the University level. In addition to this I've been the head coach for both the University of Toronto and the McMaster dragon boat crews for a decade now. I take teaching both in academia and in sport very seriously. This has lead me to take many courses in coaching leadership, and in higher level pedagogy. I feel my track record shows my competency and enthusiasm for teaching are not simply words on a resume. I'm the only physics graduate student to be nominated for teaching assistant of the year twice at McMaster, and I won best presentation for my talk at the annual 2014 Canadian Association of Physicist's summit. I'm also a volunteer with Let's Talk Science – an outreach program that brings science awareness and inclusion to young students. This, along with the success I've enjoyed in my coaching career, hopefully helps identify me as someone who may be the right fit for the open position.

Thank you for taking the time to look over my letter and CV. I would be truly grateful to have an opportunity to meet with you and interview for the position. Best regards.

Sincerely,

**Nick Miladinovic**
